REASONS FOR ALLOWANCE

1. The following is a statement of reasons for the indication of allowable subject matter: The instant application discloses a method for simultaneously demodulating a plurality of received digitally modulated signals subjected to multipath propagation impairments. Prior art references (Visotsky et al. US Patent 6,175,588, Ross US Patent 5,692,006) show similar methods but fail to teach: **“generating at least one error signal by comparing a summation of the estimates of the at least one symbols as impaired by the corresponding multipath propagation to the plurality of received digitally modulated signals”**, as in claims 22 and 48.
